## **Adjustive Techniques and Instruments Continued:**

Sacro Occipital Technique  
Spray & Stretch Chiropractic Technique using Non-Absorbent, Topical, Vapo-Coolant  
Stillwagon -Pierce Technique  
Talsky Tonal Chiropractic  
Thompson Technique  
TMJ Treatment  
Toggle  
Toftness Adjusting Technique  
Torque Release Technique and Instrument  
Total Body Modification  
Trigger Point Therapy  
Webster Technique - Approved for musculoskeletal application; *not approved* for express purpose of breech presentation.

**Diagnostic Equipment & Analytic Techniques:** The Commission does not endorse any specific company or product. Below is a list of categories of diagnostic equipment. Following each title are examples of equipment:

### **Diagnostic Equipment:**

*Body composition* - Bio/Analogs – ElectroLiopGraph / Body Composition Analysis; Futrex 5000 / 5000A Body Fat Analyzers  
*Body Function Analysis* - Nerve Express Heart Rate Variability Monitor; Urinalysis; Home Blood Test Kits (Patient Self-Administered); Skin Temperature Differential Instruments  
*Muscle strength*  
*Nutrition* - Near Metabolic Reintegration (NMR)  
*Posture* - Posture Scale Analyzer  
*Range of Motion* - MSM 5000 / 7000; (J-) Tracker  
*Surface Electromyography* - Electrode Paraspinal Electromyography; MyoVision 3G; Noromed MES 9000  
*X-Ray including digitization; MRI, Video Fluoroscopy, Thermography, Bone Density*

Chiropractors may own and operate an MRI unit consistent with all applicable state and federal laws and regulations.

### **Analytic Techniques:**

*Blood / Serum* – Can order (performing venipuncture NOT ALLOWED per statute RCW 18.25.005 (4))  
*Diagnostic Ultrasound For Non-Invasive Vascular Exams* – Approved with appropriate training to include but not limited to:

- Doppler
- Duplex
- Plethysmography

*Hair* – Can order  
*Radionuclide / Bone Scan* - Can order

*Sputum – Can order*  
*Urinalysis*

**Therapeutic Modality Equipment:** The Commission does not endorse any specific company or product. General rehabilitative exercise procedures are accepted by the Commission. However, devices that have combined diagnostic/analytical/rehabilitative components must be pre-approved.

*Cold laser -Med-X Unit; Erchonia Therapeutic Lasers, Photonic Stimulators*

*Dry hydrotherapy beds - AquaMed Dry Hydrotherapy System*

*Percussion/massage - Pettibon Tendon, Ligament and Muscle Stimulator (PTLMS); The Thumper; G5*

*Therapeutic Exercises*

*Traction and spinal decompression - Posture Pro Full-Spine Posture Pump; Spinolator*

*Vibration - Whole Body Advanced Vibration Therapy; Tonix System*

**Investigational:** No billing is allowed for procedures or instruments used under this classification.

BioPhotonic Scanner

Magnets

Mild Hyperbaric Chamber

Oxygen Concentrator

Spinography

**Non-approved:** Any procedure or instrument that does not meet with Commission's approval.

Bio-Energetic Stress Test – Galvanic Stimulation Computerized Device

Biomeridian – MSA21-BTAS-200SG

Breast Exams

Chiropractic Stressology ©

Electrotherapy: including diathermy, galvanic current, sinusoidal current, faradic current, TENS units.

Homeopathy:

- The systematic application of homeopathy does not fall within the chiropractic scope of practice. This does not preclude the use or recommendation of topical creams or certain nutritional supplements that may contain ingredients commonly listed as "homeopathic."

Infratonic QGM Therapeutic Massager

Iridology

HCG Weight-loss Program

Hypnosis (Hypnotherapy).

Nasal Specific Technique (Insertion of Inflatable Devices Into the Nasal Cavities).

Oxygen (Exception being only for emergency purposes with the appropriate training.)

ReBuilder/TENS Unit

The Testing and Reduction to Mathematical Formulae of Sputum and/or Urine (Commonly Known as "Reams" Testing).

Toftness Detection Device, Resonator, or other like devices

Ultrasound and/or X-Ray Radiation for Therapeutic (Non-Diagnostic) Purposes.

Weight-loss Cream (Containing 5% testosterone, 1% DHEA, and homeopathic ingredients)
